Summary Care Records

Helping to care for you in an emergency

In an emergency you might need care from a doctor or nurse who doesn't know you.

A Summary Care Record is an electronic record that can help give you safer, faster care by giving healthcare staff instant access to important information about your medicines, allergies and which medicines make you ill.

You can choose if you want a Summary Care Record or not.

For more information:

- ask a member of staff
- visit www.nhscarerecords.nhs.uk
- call the Summary Care Record Information Line on 0300 123 3020
